Forecast for Wednesday 30 Sep 2020

Weather: Rain affecting the Mournes from the early hours, cloud is likely to shroud the hill tops so quite foggy at times in the morning. Outbreaks of rain are expected to continue through the early morning however rain will become more showery and move east in the early afternoon. Cloud breaking with the odd sunny spell by evening.

Chance of cloud free mountain/hill tops above 700m: 40% in the morning, bases will be widely around 400-600m. By mid afternoon 70% chance with some good views likely by late afternoon.

Visibility: Visibility is likely to be moderate in outbreaks of rain. In any heavy outbreaks of rain visibility is likely to become poor or very poor for a time with cloud bases likely to lower as well. Later in the day visibility will improve.

Meteorologist's View

A very windy morning on the Mournes with gales on the tops and feeling cold. Winds will ease in the afternoon and become northwesterly, once again it will feel very cold by evening.

Forecast for Thursday 01 Oct 2020

Weather: A drier day with just a few light showers around and some good sunny intervals becoming mainly dry by late afternoon with some long periods of autumn sunshine

Maximum wind: Mainly southwesterly 10-15mph.

Chance of cloud free mountain/hill tops above 700m: 80% chance with cloud mainly above the summits, perhaps some scattered cloud in the morning.

Visibility: Generally good or very good, perhaps poor in early morning fog.

Temperature: **Valleys:** Plus 5 rising to 11 Celsius.
At 700m: Plus 4 Celsius.
Freezing level: Above the summits.
